Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 6 are rejected under 35 U.S.C. 102(b) as being anticipated by

Muderlak (5,249,718). Muderlak discloses, in figs. 1 and 2, a drive mechanism comprising a rotary member carrying a first gear wheel 76, a driven gear wheel 64 meshing with the first gear wheel, the first gear wheel and the driven gear wheel having a high gear ratio whereby the driven gear wheel rotates more slowly than the first gear wheel, a cam 66 mounted for rotation with the driven gear wheel, a cam follower 44 engaging with the cam and moveable reciprocally upon rotation of the cam, the cam follower carrying a plunger 52, 16 arranged to be moveable therewith to engage a container of product 28 and extrude product from the container.

3. Claims 1-4, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by

Carragan (3,589,563). Carragan discloses, in figs. 1 and 2, a drive mechanism comprising a rotary member carrying a first gear wheel 27, a driven gear wheel 28 meshing with the first gear wheel, the first gear wheel and the driven gear wheel having

a high gear ratio whereby the driven gear wheel rotates more slowly than the first gear wheel, a cam 43 mounted for rotation with the driven gear wheel, a cam follower 40 having a roller 42 engaging with the cam and moveable reciprocally upon rotation of the cam, the cam follower carrying a plunger 44 arranged to be moveable therewith to engage a container of product and extrude product from the container.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carragan or Muderlak. It would have been obvious to one having ordinary skill in the art at same time the invention was made to use the invention of Carragan or Muderlak with container for dispensing a semi-solid content, for example soap, jelly, in order to dispense a semi-solid liquid material.

Allowable Subject Matter

6. Claims 5 and 8-12 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-
